Source: Computer Assisted Mass Appraisal System (CAMAS) database maintained by the Montana Department of Revenue (MDOR).

ⁱ The condition ratings are:

1. Unsound – indicates that the dwelling is definitely structurally unsound and practically unfit for use.
2. Very poor – indicates that the dwelling is definitely structurally unsound and practically unfit for use. Repair and overhaul is needed on painted surfaces, roofing, plumbing and

-
- heating. There is excessive deferred maintenance and abuse. Property is approaching abandonment or major reconstruction.
3. Poor – indicates that definite deterioration is obvious. Property is undesirable and barely usable.
 4. Fair – indicates marked deterioration but is still quite usable. Property is rather unattractive and undesirable. Much repair is needed and many items need refinishing or overhauling. Deferred maintenance is obvious.
 5. Average – indicates normal wear and tear relative to its age. Property has average attractiveness and is desirable. There is some evidence of deferred maintenance needed such as minor repairs and refinishing. All major components are still functional.
 6. Good – indicates that minor deterioration is visible. Property is slightly more attractive and desirable. No obvious maintenance is required, but neither is everything new. Appearance is above the standard relative to the property's age.
 7. Very good – indicates slight evidence of deterioration. All items are well maintained and have been overhauled and repaired as they showed signs of wear. There is little deterioration or obsolescence and a high standard of upkeep relative to its age.
 8. Excellent – indicates perfect condition. Property is very attractive and highly desirable. All items that can be normally repaired or refinished have been recently corrected, such as new roofing, paint, furnace overhaul and state-of-the-art components. There are no functional inadequacies and all components are new or in like-new condition. Most new homes would receive a condition rating of excellent (unless constructed with substandard materials and workmanship).

List of Municipalities - Sorted Alphabetically

Municipality	County	Municipality	County	Municipality	County
Alberton	Mineral	Geraldine	Chouteau	Red Lodge	Carbon
Anaconda	Deer Lodge	Glasgow	Valley	Richey	Dawson
